Lunch

13:20～14:40

Panel Discussion 1: What Does It Mean by “Build Back Better” for Urban Resilience?
Panelists:

1. Ms. Setsuko Says, Co-Chair RP Steering Committee
2. Mr. Ichikawa, Director, International Cooperation Division, Disaster Management Bureau, Cabinet Office, Government of Japan
3. Mr. Tatsuya, National Disaster Management
4. Mr. Hans Guttman, Executive Director, Asia Disaster Preparedness

Understanding Disaster Risk towards Build Back Better and Resilient City Development

16:10～16:25

16:25～16:30

主催/ ORGANIZERS

国際復興プラットフォーム（IPF）: 内閣府、国連、国際協力広域・国際公共政策・アカデミー（APDC）、国際連合緊急復興支援センター（UNDRR）

International Recovery Platform (IPF), Cabinet Office, the Government of Japan, International Co-operation Agency (APDC), United Nations Office for Disaster Risk Reduction (UNDRR)

BACKGROUND

Urban Resilience refers to the ability of any urban system to withstand and recover quickly from predictable shocks and stresses, and maintain continuity of function. Therefore, a resilient city is able to “build back better” and enhance urban resilience is essentially cities to continue the important roles they play while facing with many types of hazards and events. Cities are hosts for service provision, powerhouses of economic growth, and catalysts for inclusion and alleviation.

However, by the middle of this century, 60% of the world’s population will be living in cities and at the same time, urban areas are expanding even faster than population growth. All these pose a range of challenges such as severe production decline, aging population, poverty, economic decline, urban sprawl, diseased built environment, and poor infrastructure. In addition, cities will be further threatened by unprecedented increases in intensity and frequency due to unalleviated pace of climate change. Cities need to be resilient to face these challenges and risks. Disaster recovery is a unique opportunity to demonstrate resilience.

Past experiences show that resilient cities are able to “build back” their economy, society, and environment, and “build back better” than before more effectively and efficiently into the innovation of physical infrastructure, societal systems, and the revitalization of built environment, economies, and the environment, How to build Back Better in urban area that can contribute to long term resilience needs to be urgent.

OBJECTIVES

The International Recovery Forum 2018 aims to address the following items:

1. What does it mean by “Build Back Better” for urban resilience?

To reference to one of the Sendai Framework’s Implementation Guidelines entitled “Words into Action: Build Back Better in Recovery, Rehabilitation and Reconstruction.” The invited speakers will share their expert experiences and lessons in their own urban experience on how build back better better fits for our cities, what can be done to contribute to urban resilience, and (II) a statement on the Guide’s suggested major proofcile tasks on how build back better to further refine the contribution version of the Words into Action guidelines.

2. Innovative approaches by learning from past experiences and initiatives, and how to measure success of “Build Back Better” in cities.

Invited speakers will share their innovative approaches for “Build Back Better” drawn from the experiences and initiatives of local government and other actors in cities, including private sector, to achieve long term resilience, in the aspect of housing, business, and social protection. Learning from innovative approaches, to also address to measure the success of “Build Back Better” in cities.
Panel Discussion: Innovative approaches by learning from experience and initiatives and How to measure success of "Build Back Better" in cities

Chair: Mr. ChirI Boku Mahajerin Mayor, Lalitpur Metropolitan City, Nepal

Mr. ChirI Boku Mahajerin was elected as Mayor of Lalitpur Metropolitan City in 2017.
